But not for me, though I claim

HEART"
of Heatrola

THE biggest reason for Heatrola's nation-wide success is found inside its beautiful cabinet. You'll find the Intensi-Fire Air Duct only in the genuine Estate Heatrola. And you'll find the Heatrola only at this store. See the complete line now on display—including the striking new 6-D. There's a size to suit every requirement.

All of the new Ford cars are finished in a variety of colors.

ANOTHER STEP FORWARD

THE introduction of the new Ford bodies has set a high standard of motor car value.

From the new deep radiator to the tip of the curving rear fender, there is an unbroken sweep of line—a flowing grace of contour gaining added charm from the rich and attractive colors.

You will take a real pride in the smart style and fresh new beauty of the Ford just as you will find an ever-growing satisfaction in its safety, comfort, speed, acceleration, ease of control, reliability and economy. In appearance, as in mechanical construction, craftsmanship has been put into mass production. New beauty has been added to outstanding performance.

A feature of unusual interest is the use of Rustless Steel for the radiator shell, head lamps, cowl finish strip, hub caps, tail lamp and other exposed metal parts. This steel will not rust, corrode or tarnish and will retain its bright brilliance for the life of the car. Here, as in so many other important details, you see evidence of the enduring quality that has been built into the new Ford.

NORWAY NURSING SERVICE

The Maine Public Health Association has been able to purchase an Audiometer through a special donation of money for the purpose and within a few weeks this instrument will be loaned to the Norway Nursing Service. This instrument is for the accurate testing of the hearing of the school children. The use of the Audiometer is a special project for the conservation of hearing to be carried on by the Vision and Hearing Conservation section of the Maine Public Health Association.

A word of explanation regarding the nursing services might not be amiss at this time that there should be no question as to what the service stands for. The community nurse is available at any time and in any place where there is need of nursing service or bedside work. The nurse can make a daily call or twice a day, if wanted, perhaps in the morning or evening. If the family is able to pay the fee of 75c that helps with the carrying on of the service, but does not go to the nurse. But those who are not able to pay the whole amount, or anything, are given the service for them just the same. Then, too, the nurse can teach other members of the family in the care of the sick until she is called again. If there should be any question as to the use of the funds, the books are always open for inspection. Fees collected, as has been said, help carry on the work, for there is the expense of the office, supplies, etc. The nurse has a stated salary, which is not effected by the nursing calls.

DAUGHTERS OF VETERANS

Elizabeth Crockett Blake Tent, Daughters of Union Veterans, held regular meeting, Friday evening with good attendance. Full rehearsal was held and plans made for the Daughters' Day in the Patriotic Get-together, which takes place Feb. 12. Committees for the ensuing year were appointed as follows:

Frost, Mrs. Ruby Sharon, Mrs. Sylvia Chandler, Mrs. Josephine Swan, Mrs. Elvira and Fruit Committee—Miss Gertrude Tucker, Miss Gertrude Gaudin, Mrs. Lela McAllister. Advisory Committee—Teroy Spiller, Alfred Monk, Jesse F. Edwards. It was voted to have a Valentine party at the next meeting, Feb. 14, and Mrs. Minnie Harnden was appointed chairman of the committee.

Heard and Seen at
Advertiser Office

Maurice Chipman found a carriage loaned for him, near the Noble garage, and brought it here to find an owner.

Many winter drivers fail to pay heed to the stop signs. People driving expect the other fellow to stop at the yellow sign and why not you?

Ralph Pitt and Dennis Bourque came running into the office, Monday, bringing a glove which they found by Brown's store to add to the found glove collection.

"State Chat" of the L. J. Lewiston, is in error when it says: "Dr. O. A. Stephens, noted author, got a hundred dollars for a manuscript on Norway schools 51 years ago. That was the amount divided among the three. The good doctor received only \$500; Judge Whitman, \$55,000; Mr. Gibson, \$90,000. As the doctor and the judge are with us, we must have it correct."

We recently were shown a copy of the "Students' Companion"—a text book written by Amos Jones Cook, preceptor of Fryeburg Academy. It was printed by Arthur Shirley, Portland, in 1812. The book, much soiled and damaged, is owned by Mrs. Sumner Skillings of Bolster's Mills.

Another old book, printed in Boston in 1833, by Carter, Hendee & Co., is an Arithmetic by Roswell C. Smith.

A number plate 35-283 was brought to the office Tuesday morning by C. E. Crouse of Waterville. He picked it up on the Waterville road, while on the way to Norway. A little later in the morning Fred Dunn called and greeted us with, "Well, I see you have my number plate there in the window, the boy lost it last evening." And the number plate was returned to its owner.

Some kind friend in Lovell occasionally sends items and forgets to sign them. It is a waste of postage. Don't do it. Put your name on the sheet. We'll print it—your name we mean—without your consent. Also please learn to fold an 8x11 sheet of paper. Come in and we'll show you.

George B. Lane of Berlin, N. H., gives reasons for taking this paper, in the following:

"I still enjoy the Advertiser \$2.00 worth every year, wonder if I ever told you how I became a subscriber to a paper I had never seen or knew of. I had known for many years that Norway was the home of C. A. Stephens, whose stories I have read since the early 70's, and still read with as much interest as ever. Well, I subscribed, hoping to get an item regarding Dr. Stephens occasionally. It wasn't long before I became interested in his things in the paper. Fishing Yarns, O. F. Whitman's writings, Heard and Seen at Advertiser Office, Tamarack Talk, the Weary Club, and lots of other good things, long may you live and prosper."

Frank W. Winter of Auburn has issued a circular carrying a bee-buzzing desire. We picked up a copy in the post-office the other day. It is addressed to "My dear Republican Friends" and treats on grave subjects such as: Strength, character and ability. Honest, efficient government. Potential wealth, prosperity, happiness. Complete rural electrification. Taxation equalized and decreased. Simplification of the referendum laws. Stoppage of discriminating enactments. Obsolete and useless laws. Consolidation of state departments. An honest count of ballots. Every ounce of land, water, now developed or ever to be developed to be used in the State of Maine forever. It winds up thusly:

"Please grant the courtesy of a prompt reply, frankly stating your opinion and position; especially on the point of whether you feel a public meeting of your committee would be advisable for the discussion of State and local issues, with perhaps some tentative suggestions for plans in our 1930 platform and the presentation of sundry individual propositions for the good of State and party."

200 names and addresses wanted at Advertiser Office. See ad on page 9. A stated communication of Oxford Lodge, No. 18, F. & A. M., will be held Friday evening, Feb. 7th.

Mrs. H. A. Bickford, who was stricken with a shock on Sunday, was taken in the ambulance, Wednesday, to the home of her daughter, Mrs. William Rice, in Lewiston.

John W. Singleton, U. S. N. R., 1-o, Norway radio expert, is working for Cressey & Allen's Music Store of Portland as the Victor radio service man, being in sole charge of the Victor radio.

Highway Work

Nearly every state road in Maine is slated for either reconstruction or improvement under the tentative four-year state highway construction program, recently submitted to the Governor and Council by the State Highway Commission.

The Executive Body took the program under consideration with view to the probable action at the next meeting of the Council, Feb. 12.

The program calls for state highway construction alone. Funds are to be supplied by a \$10,000,000 bond issue authorized by the last Legislature and approved by referendum, together with Federal aid. No program was submitted for the construction of \$5,000,000 in bridges, bonds for which were authorized by the Legislature in the act which authorized the \$10,000,000 road construction bonds.

The Commission says: In arranging this program only such roads as are now a part of the State Highway System have been considered for final location with alignment, grades and foundations properly prepared, so that a higher type of pavement may be added in the future.

The program submitted includes only the construction of this class highways and \$10,000,000 fair maintenance, which includes bituminous surface treatment, ordinary repaving, improving and resurfacing.

The roads in and close to Oxford County to be affected include:

Construction of 1.25 miles on Route 15 in Fryeburg, near the Saco River.

Construction of a bituminous macadam pavement between Shaker Hill in Poland and the concrete pavement in the Town of Oxford, near Welchville. This will provide a hard surfaced road between Portland via Gray, to Norway and West Paris, Route 26.

Completion of Route 109, which completes Route 108.

Completion of Route 116 between Route 26 in Poland and Route 18 in Naples.

Completion of Route 121 between Auburn and Route 26 at Welchville.

HEBRON

Considerable excitement was caused, Sunday morning, by a fire at E. E. Hutchinson's. The house caught fire from an over heated chimney and the fire spread just in time to save the buildings. A call was help was given over the telephone and in a short time about fifty men and boys were on the spot. Fire extinguishers were sent over from the Academy. The roof was mostly destroyed. The damage is estimated at several hundred dollars.
